GUARNIZIONI

Una gamma completa per tutte le esigenze che si perfeziona nell'ultima generazione: la Serie Azzurra, un nuovo materiale che unisce una grande resistenza ad una elevata dinamicità e alle più alte performance di isolamento termico e acustico.

GASKETS

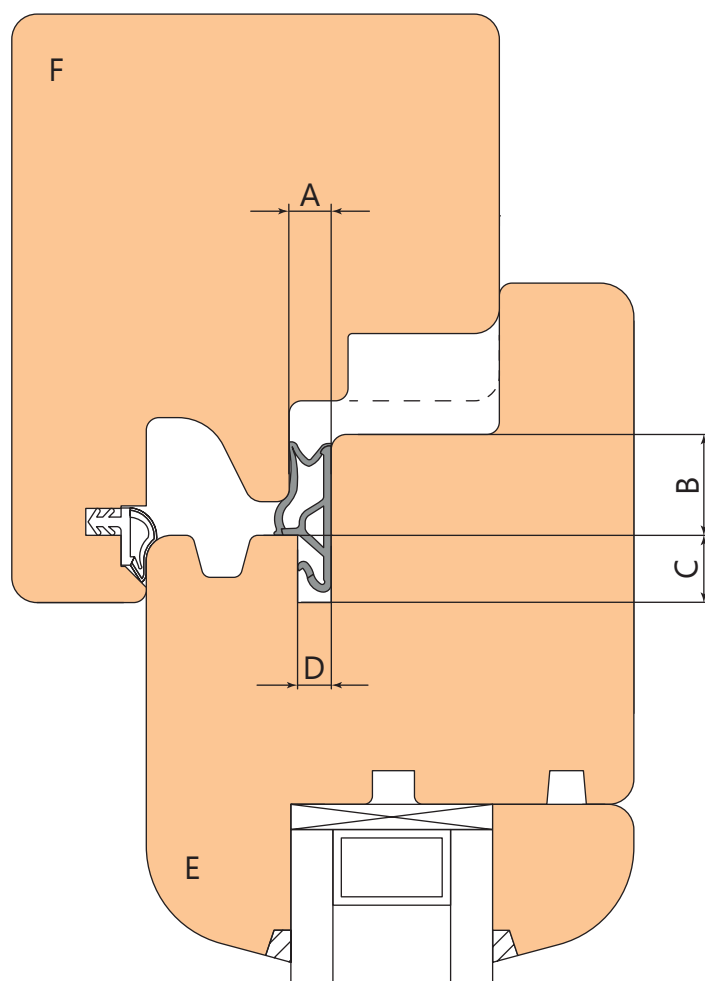

The complete gaskets range respond to all customers demands and find his top solution in the last generation product: the Serie Azzurra, a new material with high resistance to dynamic stress with the best performance in terms of thermal and acoustic insulation.

JOINTS

Une gamme complète pour toutes les exigences qui trouve sa perfection sur la nouvelle génération: la Série Azzurra, un nouveau matériau qui combine une grande résistance à la fatigue dynamique et la plus haute performance d'isolation thermique et acoustique.

JUNTAS DE GOMA

La gama completa de juntas responde a todos las demandas de los clientes y encontra su solución superior en el última generación de producto: la Serie Azzurra, un nuevo material con alta resistencia a la tensión dinámica con el mejor rendimiento térmico y de aislamiento acústico.

IT

La nuova e innovativa serie Azzurra in TPE espanso a cellule chiuse è stata studiata per garantire le massime performance di isolamento, resistenza dinamica, facilità di montaggio.

EN

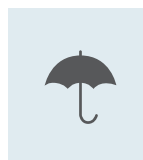

The new and innovative "Azzurra" line in TPE closed cells foam, has been designed to ensure maximum performance for insulation, resistance to dynamic stress, easy assembling.

FR

La nouvelle et innovante série Azzurra en TPE expansé à cellules fermées a été conçue afin de garantir des performances optimales en termes de calfeutrement, résistance à la fatigue dynamique, facilité de montage.

ES

La nueva e innovadora serie Azzurra en TPE en espuma de celdas cerradas se ha estudiado para garantizar el mejor rendimiento en estanqueidad, resistencia mecánica, facilidad de montaje.

IT

La geometria e la morbidezza del termoplastico delle guarnizioni serie "10" permettono un'efficace chiusura dell'aria fra anta e telaio e mantengono un ottimo ritorno elastico della stessa.

EN

The geometry and the softness of the thermoplastic seals series "10", gives a soft closing between sash and frame maintaining an excellent elastic return, and the best insulation.

FR

La géométrie et la douceur de la série des joints thermoplastique "10" permettent fermeture efficace de l'air entre le vantail et de maintenir un excellent retour élastique de celui-ci.

ES

La geometría y la suavidad de la serie de sellos termoplástico "10" permiten cierre eficiente del aire entre la hoja y el marco y mantienen un excelente retorno elástico del mismo.

IT

Nuova serie di guarnizioni con pellicola asportabile per garantire la protezione durante la verniciatura a base d'acqua e solventi. Il corpo della guarnizione è in TPE coestruso in due densità. Il gambo rigido permette l'inserimento facile e rapido, la parte morbida garantisce la massima aderenza al legno per una chiusura soft con il miglior isolamento termico.

EN

New gasket line with removable film to be protected during painting with water-based and synthetic paints. The gasket material is in TPE coextruded in two parts with different density. The shank is hard for quick and easy assembling and the body is soft so to have adhesion to the wood for soft closing and the best insulation.

FR

Nouvelle ligne de joint avec un film amovible pour permettre la protection pendant la peintures à base d'eau et certains solvants. Le matériau de joint est co-extrudé en TPE a double densités. Le sapin dur pour une insertion rapide et facile et le corps souple, afin d'adhérer sur le bois pour une fermeture en douceur et la meilleure isolation.

ES

Nueva línea de junta con la película desprendible para proteger de las pinturas a base de agua y solventes. El material de la junta se coextruye en TPE en dos densidades. El vástago es difícil para el montaje fácil y rápido y el cuerpo es blando, de manera de tener la mejor adherencia a la madera para el cierre suave y un mejor aislamiento.
